Hands On Training on Live Patients

(May and June 2018)

DATES TO BE ANNOUNCED

by Dr. Allen Nazeri DDS FICOI MICOI MBA

About the program

This unique and hands on program is specifically designed to help you advance your skills in dental implant surgery and prosthodontics. If you have no experience with dental implants or are just a beginner, we help you place up to 30 implants in 5 days of training. If you already have placed at least 100 dental implants and you like to learn more advanced skills in dental implant such as All On 4, Sinus Bone grafting, we can tailor a program just for you.

You may use your own dental implant system or Dr. Allen and his team can recommend the best implant systems from his nearly 30 years experience as an implant and cosmetic reconstructive dentist.

If you prefer the live surgery is done at your clinic on your patients, Dr. Allen and his team can also train you depending on local licensing rules and regulations.

Frequently Asked Questions

Q: Do I require a license to work on patients?

A: Yes. We will obtain a student license for you

Q: Can I do this program, if I have no surgery experience?

A: Yes. This program is designed specifically for doctors with no or minimal experience

Q: Would I actually do the implant procedure?

A: Yes. We will be with you for the entire procedure but you will be the one who actually will be doing it

Q: What Implant system would I be using to place my implants?

A: It is your choice. We will discuss this with you when you sign up so we can order the appropriate dental implants for you and your practice. We can also recommend our own favorite brands to you.

Q: Why do I need to fly to Bangkok and then fly again to another location?

A: Some of the hospitals that we affiliate with are not located in cities with major international connections and it is best if you go through Bangkok. You also spend personal time with Dr. Allen and he will provide you mentorship on how to run a successful implant practice.

Q: Am I guaranteed to place 30 implants?

A: Our team does everything possible that you have experience with at least 30 dental implant procedures. However, due to unforeseen circumstances, that may not be possible. But we guarantee that you will have enough experience with implants when you return.

Q: Does the hospital have access to 3 D Cone Beam?
